Dear [REDACTED]

Thank you for your request received on 8 April 2021 for the following information:

“the information requested is in the form of an Excel spreadsheet located at the EPA containing currently registered pesticides approved by MPI’s Agricultural and Compounds and Veterinary Medicines groups, their EPA approval number, ACVM number, manufacturer, identity and concentration of active ingredient(s), hazard classification, and use pattern (crops, disease or pest treated and application rate).”

The excel spreadsheet you have requested is enclosed.

Please note that the spreadsheet has been manually compiled by employees of the Environmental Protection Authority (EPA). It therefore may contain some errors and the information should be cross checked against publically available information.
