Dear Matt and Evita,

RE: Request for information from Silk Road Management Limited, Pudong Housing Development Company Limited and Foodstuffs North Island Limited (the applicants) in relation to Dominion Road Mixed-use Development application under COVID-19 Recovery (Fast-track Consenting) Act 2020

We are responding to the Expert Panel **Further Information Request 9**, contained in the EPA letter dated 28 May 2021.

In responding we confirm we are retained by our Client Foodstuffs as the stormwater analysis specialist providing expert stormwater flood risk and hazard assessment advice on this project.

Expert Panels Query:

Appendix 15 (Flood Report), page 30 states the increased rainfall expected with climate change has been modelled as a “professional courtesy” with the “increases [in rainfall] beyond the regulatory requirement.” Please clarify given “the effects of climate change” are an other matter in section 7 of Part 2 of the RMA 1991 which is referenced in Clause 31 of Schedule 6 of the COVID-19 Recovery (Fast-track Consenting) Act 2020

Response

Ewaters have accounted for climate change as required by Auckland Council. Details of the climate change storm events used for simulations and analysis are located in the Modelling Report delivered with the Flood Assessment Report - Section 3.4.1 Table 5.

Your sincerely etc.

Jess Wallace
Principal Water Resources Engineer
Ewaters New Zealand Ltd
