Comments on Federal Street Residences, Fast Track Application, Victoria City Apartments.

Victoria City Apartments will be exposed to similar noises and particulates from the [REDACTED] construction site as will the other adjacent buildings. However, Victoria City Apartments residents rely on opening windows for ventilation. (Victoria City Apartments was built in 1967, with the two upper levels built in 1992) Experience from the construction of Victoria residences, across the road, and the Convention Centre roof fire, tells us that Victoria City Apartments is more exposed than the surrounding buildings.

Victoria City Apartments request an easily accessible front line liaison person to

- speed contact and
- have sufficient authority to act to resolve problem issues.
- We will need some assistance from the builders to assuage the problem of additional cleaning.
