I am the owner of [REDACTED]

I have discussed my concern with Garry Russ and together we have formed the Submission forwarded by him.

In the 18 yrs, I have been on 49 Eriggst. I had no flooding on my property until the He Korowai Trust developed the ground and closed the drain which had previously saved my property from flooding.

I totally support Garry Russ and Kathleen in all aspect they have raised.

This proposed development will further compound the current flooding and security of our homes and increased  
~~surplus~~

the possibilities of all the years surplus flooding  
documented by Garry and Kathleen.

I oppose the proposed extension  
as outlined in your letter.
