---

Afternoon June

Reference is made to your email of 10 November requesting comment on the above matter

1. I have reviewed the conditions and note they are comprehensive
2. In conditions 68 and 69, reference is made to Group Manager Engineering Services. The current title is Group Manager Community Services and Infrastructure. Alternatively, replace with GM Environmental Services so there is a single and consistent point of contact with matters involving STDC. It is inferred in many of the conditions that cross-functional interactions will be required
3. Condition 71 would benefit from including CE Taranaki Regional Council, who will be the subject matter expert if the lizard survey produces results requiring further assessment
4. I will not provide detailed comment on formatting and grammar in a draft, but there are a number of instances where words have merged together

I wish the panel well in the upcoming deliberations

Regards

**Liam Dagg**
