Karaka North Village Expert Consenting Panel

C/- Environmental Protection Authority
Attention: Mary McConnell
by email

Dear Mary

Request to suspend the processing of the Karaka North Village Application under the Covid-19 Recovery (Fast-Track Consenting) Act 2020

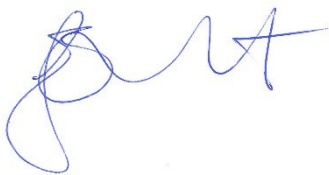

1. I act for Karaka North Village Limited (**KNV**) in relation to its application for resource consent to develop residential lots, a commercial centre, and the associated infrastructure at 348 Linwood Road and 69A Dyke Road, Karaka, Auckland (**Application**) under the Covid-19 Recovery (Fast-Track Consenting) Act 2020 (**FTCA**).

Request for Suspension

2. The Panel issued Request for Information (No. 1) (**RFI**) with respect to the Application on 23 May 2022. Further identified information was requested to be provided by **4pm Tuesday 7 June**.
3. Unfortunately, the requested information will not be complete by the stated timeframe. To enable completion of a comprehensive response to the RFI, KNV requests the suspension of the processing of this Application pursuant to Schedule 6, clauses 6(1)(b)(ii) and 23 of the FTCA.
4. I request the Panel **suspend processing prior to the deadline of 4pm Tuesday 7 June**.

5. This request falls within the timeframe set out in clause 23(2) of Schedule 6 as the Application has been provided to the Panel, but the Panel is yet to make a final decision on the Application.
6. At the time of writing, I do not nominate a defined end date to the suspension request. Having said that, for the Panel's information I anticipate the response package should be provided to the Panel by 13/14 June.
7. During the suspension period the Panel may wish to continue to review and assess the Project in the interim, given the statutory time constraints. To the extent necessary, KNV confirms that it agrees to and will fund any such work undertaken during the period of suspension.

Yours faithfully

Jeremy Brabant
