

# Application for Resource Consent

## Under clause 2(1) of Schedule 6 of the COVID-19 Recovery (Fast-track Consenting) Act 2020

This form is to be used to apply for a resource consent(s) for listed projects and referred projects under clause 2(1) of Schedule 6 to the COVID-19 Recovery (Fast-track Consenting) Act 2020 (“the Act”). If the project also includes a Notice of Requirement please also complete the separate Notice of Requirement form.

All legislative references relate to the COVID-19 Recovery (Fast-track Consenting) Act 2020 unless otherwise stated.

Resource consent applications cannot be lodged with the EPA or determined by a panel if they relate to an activity that:

- is classified as a prohibited activity in a relevant plan or proposed plan, or in regulations made under the Resource Management Act 1991 (including any national environmental standard); and
- is to occur within a customary marine title area, unless agreed in writing with the appropriate customary marine title group.

The information required for resource consent applications are prescribed in clauses 9-12 of Schedule 6 of the Act.

Your application must:

- Include the information required (which is listed in the Resource Consent Application checklist on this form); and
- Comply with any restrictions or obligations, such as any information requirements included in Schedule 2 or 3 of the Act, as applicable.

The information you provide must be in sufficient detail that corresponds with the scale and significance of the effects that the activity may have on the environment, taking into account any proposals to manage the adverse effects through conditions. If these information requirements are not met, the Environmental Protection Authority (EPA) must return your application.

If the project is planned to proceed in stages, please provide details of the nature and timing of the staging and indicative lodgement dates for each stage. Note that a new application should be lodged for each separate stage.

We recommend that you discuss your application with the EPA before lodging the application. Please contact the EPA:

By phone: 0800 080 065; or

By Email: [fasttrack@epa.govt.nz](mailto:fasttrack@epa.govt.nz)

Applications must be submitted to the EPA by email [fasttrack@epa.govt.nz](mailto:fasttrack@epa.govt.nz) and in hard copy (six hard copies required). Hard copies are to be sent to the Environmental Protection Authority, Level 10, 215 Lambton Quay, Wellington.

Please also provide one copy of a redacted version (clearly labelled) that does not disclose personal contact details for you (the applicant) and any other individual, including persons identified as owners or occupiers of land or affected persons.

If your application includes or is for a coastal permit to undertake an aquaculture activity, an additional copy of the application documents must be included for the EPA to provide to the Director-General of the Ministry for Primary Industries.

All documents lodged with this application, must be indexed.

Electronic documents shall be separated into smaller files less than 30MB.

Your personal and company information will be held by the EPA and used in relation to this application. You have the right to access and correct personal information held by the EPA.

If your application is accepted as complying with the requirements of clause 3 of Schedule 6 of the Act, it will be provided to specified parties invited to comment by the expert consenting panel. Any personal contact details (phone number, address and email) including any owners and occupiers listed in application documents, will not be made publicly available.

Your full application (including business contact details) will be publicly available on our website.

All information held by the EPA is subject to the Official Information Act 1982.

We will recover from you the actual and reasonable costs incurred in respect of this application. We may suspend processing your application for non-payment of costs. A copy of the EPA Cost Recovery Policy is available on the EPA website: <https://www.epa.govt.nz/fast-track-consenting/making-an-application/>

[ This application seeks resource consents to authorise the inground enabling works for the new Dunedin Hospital. These works will generally comprise the following activities:

- Excavation and removal of existing building slabs and foundations where required.
- Earthworks, including:
  - Excavation of the Inpatient Building sub-floor area and pile caps, and other localised excavations/filling on the Inpatient building site for future landscaping and paving, and the movement of some excavated material from the Inpatient to Outpatient site, with the balance of the remaining excavated material disposed off site.
  - Recontouring, and localised excavations on the Logistics Centre site for pile, caps, ground beams, and upstand foundation walls.
  - Localised excavations on the Outpatient building site, including for pile caps, ground beams, upstand foundation walls, and future landscaping and paving.
- Dewatering of excavation areas.
- Installation of piles for the new buildings and link bridges, including pile driving/boring, and associated pile driving analyser testing of piles.
- Construction of the pile caps, ground beams and upstand foundation walls (where applicable).
- Trenching for installation of civil services on all sites, and within legal roads.

Land use consents, and discharge and water permits are required to authorise these activities under the relevant district and regional plans, and under the National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health. ]

[ Representatives from the Ministry of Health project team have delivered letters to all adjacent properties, requesting the provision of contact information for each occupier of those properties. The contact details received either in response to those letters or via other forum (for example, through previous engagement) are included at **Attachment 19**. ]

## Part 6: Is this application part of a project planned to proceed in stages?

Yes (see below)

No

If the project is planned to proceed in stages, please provide details of the nature and timing of the staging and indicative lodgement dates for each stage. Note that a new application should be lodged for each separate stage.

[ This application is for the enabling works required for the new Dunedin Hospital being the project described in Schedule 15 of the COVID-19 Recovery (Fast-track Consenting) Order 2020. ]

This application seeks resource consent to authorise the inground enabling works across the three NDH blocks and is being applied for ahead of the consent application and notice of requirement for the construction and operation of the NDH (Stage Two). This staged approach has been adopted on the basis that, while the design of the NDH is well-advanced, there remain some aspects which still require resolution. These aspects will not have any material impact on the enabling works (and thus this consent can progress) but delaying lodgement to accommodate their resolution and enabling a single consent application to be progressed would mean that the programmed commencement date for construction of the NDH would not be met. Importantly in the context of the Act, the employment and economic gains which would accrue from those works would also be delayed.

Advancing the enabling works consent separately from the main build consent provides the best opportunity to ensure that those delays are avoided, and the regional and national economic stimulus offered by the NDH project occurs as anticipated.

## Part 7: Signature

I hereby certify that, to the best of my knowledge and belief, the information given in this application is true and correct, and that I am authorised to make this application.

I understand that the EPA can recover actual and reasonable costs incurred in relation to this application.
