

Asset Owner Response

From: Mark Iszard, Growth and Development Manager, Healthy Waters

Date: 24.05.2021

Overall Summary:

With respect to the stormwater matters, while we have engaged in meaningful conversations with the applicant since the application was accepted by the EPA. We have no way of knowing what additional information has been submitted or considered by the EPA and if it is the same as what we discussed with the applicant so I'm unsure how we can reasonably respond to this request except to say we are discussing stormwater with the applicant but we have not reached any formal agreement nor had any updated documents following our discussion.
