Subject: Re: FTC36 Whakatane - comment on draft conditions

Afternoon June

Thank you for your prompt response yesterday allowing us to be further involved in the consenting process.

The Whakatane Rowing Club have the following comments on the imposed conditions.

1. Thank you for our inclusion in the Community group
2. We would like to be included in consultation re the development of an operating plan, and Navigational aids
3. We would like direct formal notification re Dredging activities
4. We would like to note that we believe Stage 3 and an increase in recreational vessels rather than Commercial vessels will increase the river traffic upstream of the proposal

Regards Steve Brine
President Whakatane Rowing Club
