Dear Sean,

Thank you for providing an indication of your development plans in this area. I can confirm that we have infrastructure in the general land area that you are proposing to develop at Wooing Tree Estate in Cromwell.

Chorus will be able to extend our network to provide connection availability. Chorus is happy to work with you on this project as the network infrastructure provider of choice. What this ultimately means is that the end customers (business and home owners) will have their choice of any retail service providers to take their end use services from once we work with you to provide the physical infrastructure.

Any further questions please don't hesitate to get in touch

Scott Hollings
