- (8) This Group Standard excludes any substance that is a hazardous chemical not listed on the Inventory of Chemicals.
- (9) For the purposes of subclause (8), “chemical” means any element or compound in its natural state or obtained by any production process, including any impurities and any additive necessary to preserve the stability of the chemical but excluding any solvent which may be separated without affecting the stability of the chemical or changing its composition.

## **5. Conditions of Group Standard**

The conditions that specify the obligations and restrictions for substances covered by this Group Standard are set out in Schedule 1.
